## NOT AN INCH OF ULSTER FOR SOUTH IRELAND

Speakers at Killeel Orange Meeting  
Last Night Were Most Emphatic  
in Declaration.

Belfast, March 18 (By the Associated Press).—Not an inch of Ulster territory will be yielded to southern Ireland, speakers at the Killeel Orange meeting Tuesday evening declared. Harry Mulholland, member of the Ulster parliament, son of Lord Dunleath, declared Ulster had decided to have nothing to do with the boundary commission provided for in the Anglo-Irish treaty.

"Before we yield an inch of our territory to the rebels we will have to kill twenty or thirty thousand Orangemen," he declared. "If such a thing is attempted thousands of Orangemen in the colonies will flock to Ulster's aid."

Lady Craig, wife of the Ulster premier, also spoke, saying the premier's recent tour had resulted in a determination on his part never to allow an inch of territory "to be filched from Ulster."

Field Marshal Henry Hughes Wilson who is formulating plans for maintaining order in Ulster, arrived in Belfast today from England. He will leave for a tour of the border after consulting Home Secretary Bats.

## REP. GREENE OPPOSED BILL

Particularly Against Proposed Reduction in Officer Strength

OF U. S. ARMY TO  
11,000 OFFICERS

Vermonters Supported Representative Kahn on Floor of the House

Washington, D. C., March 18.—A difference of opinion over the size of the army was voiced by Republican leaders in the House yesterday during consideration of the army appropriation bill. No sooner had Chairman Kahn of the military affairs committee expressed opposition to any reduction in the enlisted or officer strength than Representative Mondell, Republican leader, declared he approved action of the subcommittee, which framed the bill in providing that by July 1, the enlisted personnel of the regular army must be cut to 115,000 men and the number of officers decreased to 11,000.

General debate was concluded late in the day and indications were that the House would reach a vote to-day or Monday on sections of the bill relating to the size of the army.

With party lines disregarded to a certain extent, the House membership appeared to be divided into three main groups—one determined to stand by the committee recommendations, another preparing to demand an army of 100,000 men, while the third was lining up in support of the war department which requested a pay allowing sufficient to maintain 150,000 men and 13,000 officers during the coming fiscal year.

During his address to the House, Mr. Kahn took the position that it would be "false economy" to order too drastic a cut in the army's size. He reminded his colleagues that Republicans and Democrats alike in the early stages of the war had stood behind a Democratic president in an attempt to build up an efficient fighting machine. The "splendid example" set then, he added, should be a lesson to the appropriations committee which, he contended, in reporting the army appropriation bill had disregarded the expressed wishes of the administration relative to enlisted and officer personnel.

Mr. Kahn had the support of Representative Greene of Vermont, a Republican member of the military affairs committee and also member of the Republican steering committee, who protested particularly against the proposed reduction in the officer strength, and Representative Dallinger, Republican, Massachusetts, who expressed vigorous opposition to the committee recommendations.

## WOMAN'S PLEA FAILED.

Mrs. Emma Burkett of Hillsdale, Ind., Appealed to Gov. McCray.

Indianapolis, March 18.—Though imprisoned for attempting to defraud Theodore Roosevelt's estate out of \$80,000, Mrs. Emma Burkett of Hillsdale, Ind., has reached the ears of two governors in protesting her innocence, but her plea will be in vain, Governor Warren T. McCray of Indiana announced yesterday.

"I do not believe any injustice is being done her," he said, referring to her imprisonment under a charge of having forged Mr. Roosevelt's name to a note which was presented for collection after his death. Later she was convicted and imprisoned in New York.

Governor McCray said he had written Governor Miller of New York expressing the belief that no injustice was being done Mrs. Burkett.

## ALWAYS TIRED NO AMBITION

Nervous and Dizzy, Everything Seemed to Worry Me. How I Got Well

Larwill, Indiana.—"My back was so bad I could not do my washing."

was always tired out and had no ambition, was nervous and dizzy and everything seemed to worry me and I had awful pains in my right side. I felt badly about four years and could not do my work as it should have been done. I saw Lydia E. Pinkham's Vegetable Compound advertised so much and it did so many people good that I began to take it myself. I am feeling fine now and everyone tells me they never saw me looking so well. I live on a farm, do all my work, and have three little girls to take care of. I am recommending this medicine to my friends and know it will help them if they use it like I do."—Mrs. HERBERT LONG, R. R. 3, Box 7, Larwill, Indiana.

Many women keep about their work when it is a great effort. They are always tired out and have no ambition. When you are in this condition give it prompt attention. Take Lydia E. Pinkham's Vegetable Compound, for it is especially adapted to correct such troubles.

## MARSHFIELD

Mrs. E. V. Spencer at Age of 83 Years Still Has a Sweet Singing Voice.

We should feel justly proud in having in our midst a person like Mrs. E. V. Spencer, who at the advanced age of 83 years retains her sweet soprano voice to a remarkable degree. She has, at the request of a deceased friend, sung at the funeral last Thursday and it seemed, even with the weight of years, that her voice had not lost of any of its sweetness. She has always resided in town, with the exception of a few years spent in Barre, and has always been a prominent factor in the musical circle of our community. Many of our people of middle age recall with pleasure the evening when she taught them the first rudiments of music. During the winter months she has been confined indoors rather closely by the care of her aged husband, who is 87 and in feeble health. Mr. and Mrs. Spencer will have been married 66 years May 18 next.

Mr. and Mrs. H. D. McVillars, business visitors in Danville on Thursday.

There was a good attendance at the regular meeting of Pythian Sisters last Wednesday evening. The degree was worked on one candidate. A short program was given; readings by Miss Abbie Smith of Cabot were especially enjoyed. Refreshments of ice cream and cake, doughnuts and coffee were served. A large bride's cake was made by Mrs. W. D. Smith and presented to Mr. and Mrs. J. W. Mears in honor of their 25th anniversary, which fell on this date. ## PACIFIC TREATY WAS ATTACKED IN SENATE

Senators France, Johnson and Watson Delivered Attacks on the Document.

Washington, D. C., March 18.—Another assault was thrown against the four-power Pacific treaty by the Senate irreconcilables yesterday after the treaty's friends had argued among themselves for an hour as to whether the pact might properly be called an "alliance." The fight against ratification was carried forward in turn by Senators France, Republican, Maryland; Johnson, Republican, California; and Watson, Democrat, Georgia, in a series of speeches.

In the course of the debate charges of "propaganda" both for and against the treaty were made by the opposing sides, but no one produced any direct evidence to support the assertions.

The discussion over application of the term "alliance" took place largely between Senator Willis, Republican, Missouri, both supporters of the treaty.

By Senators France, Johnson and Watson it was declared that the dictionary definition covering the treaty mattered little and that the real nature of the four-power arrangement must be judged by its practical operation. Mr. Johnson asserted that so far as actual wording went the Anglo-Japanese alliance covered only unprovoked aggression in eastern Asia and India and that it really was dangerous to the United States, as argued by supporters of the four-power treaty, the reason lay behind the lines.

Judged by the same process, he asserted the four-power pact might easily lead to many dangers in actual practice.

## Are Weak Kidneys Making You Feel Older Than You Should?

Many Folks Are Older at 40 Than Others Are at 60. All Too Often Sick Kidneys Are to Blame.

ARE you one of those unfortunate folks who find yourself feeling older and slower than you should? Do you get up mornings feeling lame and stiff; drag around day after day with a constantly aching back? Evening find you utterly worn out—fit only for bed? Do you wonder why you are beginning to feel so old—why you find it so impossible to be happy and to get from life the fun you used to have?

Then you should give some attention to your kidneys! Present day life, with its hurry and worry is mighty hard on the kidneys. The kidneys weaken, uric poisons fill the blood and upset the whole system. That's why so many folks feel years older than they really are. And all too often the true cause is overlooked until the trouble becomes chronic.

Don't neglect these early symptoms! Realize that it's just this condition that leads to hardened arteries, rheumatism, gravel, dropsy and Bright's disease. Use Doan's Kidney Pills and give your weakened kidneys the help they need. Doan's have helped thousands and should help you. Ask your neighbor!

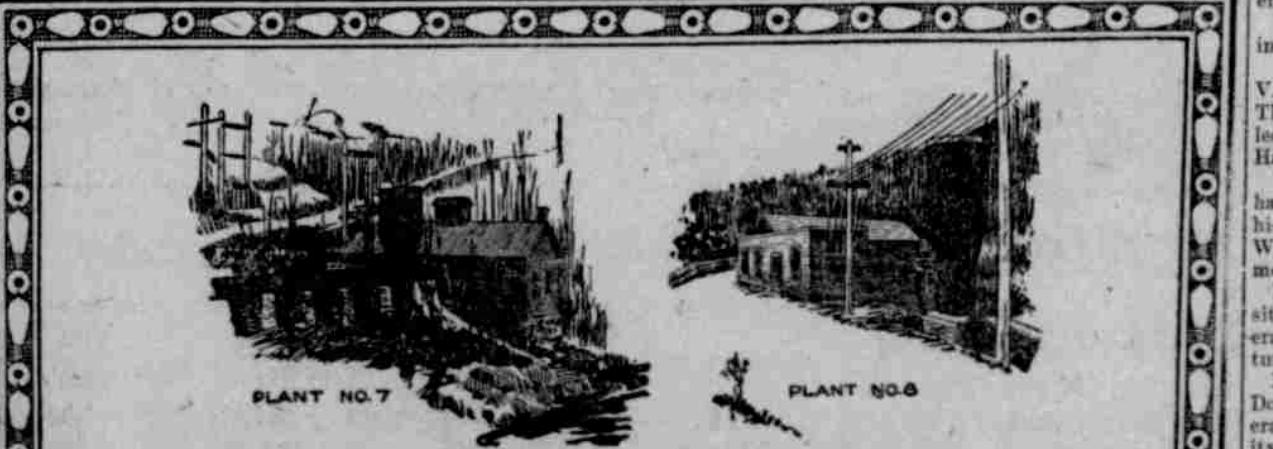

## "Use Doan's," Say These Barre Folks:

**E. L. DENSMORE, Contractor, Brook and Pleasant Sts., says:** "Several years ago I was in bad condition with a severe attack of back-aches. I had kidney complaint and constant pains over my kidneys. I used Doan's Kidney Pills and found them an excellent remedy. I recommend them to other kidney sufferers."

**MRS. A. TANGUAY, 14 First St., says:** "Three years ago I was in bad shape with my back and kidneys. My back was lame and pained badly at times. I was nervous and languid all the time and suffered with headaches and dizzy spells. My kidneys were weak and irregular in action. A friend advised me to try Doan's Kidney Pills and I got five boxes. After a short time they relieved me. I never fail to recommend Doan's Kidney Pills for they are wonderful."

## SERVING OUR NEIGHBORS

BY the year 1900, it was evident that Electricity had come into Washington County to stay. Montpelier, the capital, and Barre, the largest granite city in the world, had made such rapid strides forward with the coming of electric light and power, and the local industries of the whole region had shown such remarkable growth, that the people of adjacent towns had begun to feel that they too should enjoy the benefits of electric service.

In 1904, Messrs. Moody and Almon constructed two hydro-electric plants on the Mad River, which supplied current to the villages of Waterbury, Northfield, Moretown and Waitsfield. These plants had a capacity of about 1000 horsepower.

These two plants are today known as Plants No. 7 and No. 8 of the modern hydro-electric-steam generating system which sends current, week in and week out, to the remotest sections of Washington County, tying them more closely together, and bringing light, comfort and convenience into hundreds of homes that today enjoy a broader, happier community life.
